STATE FORESTER

FOREWORD

The State of California has declared through law (Public Resources Code, Section 4125) that it has the primary financial responsibility of preventing and suppressing wildfires which threaten natural resource values upon the following lands within the State of California (excluding those lands owned or controlled by the Federal Government or within the exterior boundaries of incorporated cities):

- (a) Lands covered wholly or in part by forests or by trees producing or capable of producing forest products.
- (b) Lands covered wholly or in part by timber, brush, undergrowth, or grass, whether of commercial value or not, which protect the soil from excessive erosion, retard runoff of water or accelerate water percolation, where such areas are sources of water which is available for irrigation or for domestic or industrial use.
- (c) Lands in areas which are principally used or useful for range or forage purposes which are contiguous to the lands described in sections (a) and (b) above.

The State Board of Forestry is responsible for classifying the lands described above and delineating them on official maps. These lands are termed "State Responsibility Area." They are also known as "Clarke-McNary lands," after the Federal law recognizing the National interest in these primary timber and watershed areas. Under the Clarke-McNary Law, the State of California receives reimbursement from the Federal Government on a percentage of State expenditures for protection of these lands. All State Responsibility Area lands qualify for Clarke-McNary funds. The State has designated the California Division of Forestry (CDF) as its agent for protecting natural resource values in State Responsibility Area from damages by wildfires.

That portion of State Responsibility Area which is situated generally between the National Forests and the valley floor is termed "State Zone." This area is protected directly by the CDF and the five "Contract Counties" (Kern, Los Angeles, Marin, Santa Barbara and Ventura).

Those valley-floor lands in which there is no State or Federal interest in timber, watershed, range, or erosion are the fire protection responsibility of local agencies and are known as "Local Zone."

The CDF contracts with the United States Forest Service and with the five Contract Counties for the protection of State Responsibility Area located within those agencies' protection boundaries. In turn, certain Federal agencies (Bureau of Land Management, Bureau of Indian Affairs, Bureau of Reclamation, and United States Forest Service) contract to the CDF for the protection of Federal lands intermingled with State Responsibility Area within the State Zone.

Some local governments contract to the CDF for the protection of life and property in Local Zone or State Zone. The CDF is reimbursed by the local government for this service.

Except where specifically noted, the tabulations in this book are derived from reportable action on wildfires occurring on State Zone and Local Zone areas directly protected by the Division of Forestry.

Not reported here are fires upon lands protected by other agencies such as the United States Forest Service, Bureau of Land Management, National Park Service, Bureau of Indian Affairs, fire districts and city and other fire departments, except as noted. Fire suppression action by CDF crews on these lands is shown. Action by these agencies upon the CDF's direct protection area is also shown.

	<u>STATE ZONE</u> (Acres)	<u>LOCAL ZONE</u> (Acres)
REGION I	6,374,957	181,664
REGION II	6,703,527	651,071
REGION IV	4,828,191	3,088,763
REGION V	5,942,469	353,214
REGION VI	<u>4,251,498</u>	<u>1,075,298</u>
STATEWIDE TOTAL	28,100,642	5,350,010

STATE ZONE: Generally speaking, this is the area between Local Zone and the USFS-CDF pay protection boundary line, including intermingled Federal lands (with the exception of Military).

LOCAL ZONE: Generally speaking this is the agricultural and rural valley floor land lying below the State Zone in counties which have rural fire protection agreements with the Division of Forestry, exclusive of Federally owned lands in these areas.

one crew run is the response of one suppression station to a fire regardless of number of trucks or return trips to the fire.
Miscellaneous fires are wildfires occurring in Military Reservations, Contract Counties, Cities, Other States and Mexico.
Local Government supported crews.
