Wildfire Activity Statistics

JERRY PARTAIN

Director

WILDFIRE ACTIVITY STATISTICS

FOREWORD

The California Public Resources Code directs the State Board of Forestry to designate state and privately owned forest, watershed, and rangeland as "State Responsibility Area". The Department's fire protection mission is to protect natural resources on those lands from damages by wildfire. Land not designated as State Responsibility Area is the protection responsibility of federal or local agencies.

The Department of Forestry provides direct protection for most State Responsibility Area. The remainder is protected by several agencies and counties under contracts with the state. The Department of Forestry also contracts to provide wildland fire protection on certain federal lands, and also provides contracted life and property protection for numerous local governments.

This annual report is primarily a statistical record of fires, damages, and fire suppression activity on State Responsibility Area, and on other areas which the Department of Forestry protects under contract.

GLOSSARY

C.D.F. = California Department of Forestry

CONTRACT COUNTY = Counties that protect State Responsibility Area with their fire departments. For providing that protection the counties receive payment from the state, and C.D.F. support and reinforcement as needed for fire suppression. There are six contract counties: Kern, Los Angeles, Marin, Orange, Santa Barbara, and Ventura.

DIRECT PROTECTION = The area protected by an agency with its own fire protection force.

FEDERAL ZONE = The direct protection area of U.S. Forest Service, Bureau of Land Management, National Park Service, Department of Defense, and Bureau of Indian Affairs. State Responsibility Area within federal zone is protected by federal agencies. For providing that protection the federal agencies receive payment from the state.

LOCAL ZONE = Area in which there is no State Responsibility Area. In general, this is valley floor and desert land. Fire protection in local zone is provided by local government agencies such as cities, counties, and fire districts, or by the C.D.F. under contract to local governments.

LOCAL RESPONSIBILITY FIRE = A fire that did not burn or threaten to burn natural resources.

STATE RESPONSIBILITY AREA ("SRA") = The area designated by the State Board of Forestry on which the state assumes financial responsibility for protecting natural resources from damage by fire.

STATE RESPONSIBILITY WILDFIRE = A fire in SRA which burns or threatens to burn natural resources.

STATE ZONE = State Responsibility Area and intermingled islands of federal land protected by the C.D.F. and contract counties. Most federal land in state zone is protected by the C.D.F. under contracts with federal agencies.

WILDFIRE = Contraction of "wildland fire." This term is used by wildland fire protection agencies to indicate a vegetation fire. Wildfire generally replaces such terms as forest fire, brush fire, range fire, and grass fire.

WILDFIRE STATISTICS

ALL AGENCIES

1983 CALIFORNIA FIRE SEASON SUMMARY

With seven consecutive months of above normal precipitation the 1982-83 winter produced record breaking amounts of rain and snow. The spring months were cool, and rain continued through April and into May in some areas.

The fire season opened May 15th in Southern California, and by June 1st the remainder of the CDF was on fire mission status. In high elevation areas the snowpacks and residual moisture lasted well into the summer, and timbered areas suffered only minor fire damage.

In the CDF's wildland protection area there were 5,969 fires that burned a total of 71,000 acres. The statistics for 1983 are very close to those for 1982, another mild weather year. The number of CDF wildfires in 1983 was about 73% of average and acres burned were only about 45% of average. The largest single fire of the season was relatively small at 7,800 acres.

Fall rains arrived at the usual time, ending the fire season in the north in October, and in Southern California by November 11th.

NUMBER OF WILDFIRES AND ACRES BURNED

<u>Direct Protection Area of:</u>	<u>Wildfires</u>	<u>Acres Burned</u>
California Department of Forestry - - - - -	5,969 - - -	71,000

1983 Total - - - - -	8,762 - - -	128,000
5-Year (1979-1982) Annual Average - - - - -	12,429 - - -	302,000

1983 SERIOUS FIRE SUMMARY

The following list includes fires 300 acres or larger that burned at least:

TIMBER - 30 acres or more, or
BRUSH - 300 acres or more, or
WOODLAND AND/OR GRASS - 1500 acres or more, or
3000 CDF PERSON HOURS - expended on fire suppression.

The list is primarily CDF fires, but also includes some other agency fires on which CDF forces were significantly involved. The other agency fires shown are not a complete list of any other agencies large fires.

Abbreviations used in this list are:

DATE START = Date fire started.
DATE CONT. = Date fire contained.
ORIGIN D.P.A. = The agency on whose direct protection area (D.P.A.) the fire started.
ACRES BURNED = Acres burned in direct protection area of CDF, other agencies, and total area burned.
VEG. TYPE = Type of vegetation on area burned.
T = Timber
B = Brush
W = Woodland
G = Grass
AP = Agricultural Products
HOMES = Number of dwellings destroyed or damaged. Dwellings destroyed or damaged by fires not included on this list have not been tabulated.

MISC. ABBREVIATIONS:

NF = National Forest
USFS = United States Forest Service
BLM = Bureau of Land Management
CC = Contract County
N/A = Not Available

FIRE STATISTICS

LOCAL RESPONSIBILITY

CDF CONTRACT PROTECTION

This section lists fires suppressed by CDF forces under contract to local government agencies.

The data source for this section is CDF form FP-1 reports coded "3" in item number 34 "protection responsibility".

LOCAL GOVERNMENT CDF CONTRACT PROTECTION

"CAUSE" IS BASED ON "FORM OF HEAT CAUSING IGNITION"

FUEL POWER OBJ.	= Heat from fuel powered equipment of all types. Includes both mobile equipment such as vehicles, and stationary equipment such as water heaters. Includes sparks, hot particles, flames, etc. escaping from equipment and starting fires.
ELEC. EQUIP.	= Heat from electrical transmission and electric powered equipment. Includes short circuits, arcing, sparks, overheating, etc.
SMOKING	= Heat from smoking material such as cigarettes, pipes, tobacco, etc.
OPEN FLAME	= Heat from open flame or sparks. Includes campfires, rubbish fires, land clearing, matches, candles, etc.
HOT OBJECT	= Heat from hot object. Includes heat due to friction such as overheated tires, bearings, brake shoes, etc.
EXP. OR INCEND.	= Heat from explosives, fireworks, and incendiary devices.
NATURAL SOURCE	= Heat from natural sources such as lightning and spontaneous combustion.
OTHER FIRE	= Heat from another hostile fire. Examples are: a grass fire started by a vehicle fire, a building ignited by a grass fire, and a building ignited by a separate building fire.

* One crew run is the response of one suppression crew to a fire regardless of number of engines sent or return trips to the fire.

** Miscellaneous fires are wildfires occurring in Military Reservations, Contract Counties, Cities, Other States and Mexico.

"LGC" - Local Government Contract crews.

B State supported CDF crews.

DT Bulldozer and transport unit.

* One crew run is the response of one suppression crew to a fire regardless of return trips to the fire.

** Miscellaneous fires are wildfires occurring in Military Reservations, Contract Counties, Cities, Other States and Mexico.

*** ACC = Adult Conservation Camp
CCC = California Conservation Corps
YCC = Youth Conservation Camp
