Wildfire Activity Statistics

D. E. Pesonen

Director

FORWARD

The State of California has declared through law (Public Resources Code, Section 4125) that it has the primary financial responsibility of preventing and suppressing fires which threaten natural resource values upon the following lands within the State of California (excluding those lands owned or controlled by the Federal Government or within the exterior boundaries of incorporated cities):

(a) Lands covered wholly or in part by forests or by trees producing or capable of producing forest products.

(b) Lands covered wholly or in part by timber, brush, undergrowth, or grass, whether of commercial value or not, which protect the soil from exessive erosion, retard runoff of water or accelerate water percoloation, where such areas are sources of water which is available for irrigation or for domestic or industrial use.

(c) Lands in areas which are principally used or useful for range or forage purposes which are contiguous to the lands described in sections (a) and (b) above.

The State Board of Forestry is responsible for classifying the lands described above. These lands are termed "State Responsibility Area". The State has designated the California Department of Forestry (CDF) as its agent for protecting natural resource values in State Responsibility Area from damages by fires.

That portion of State Responsibility Area which is situated generally between the National Forests and the valley floor is termed "State Zone". This area is protected directly by the CDF and the five "Contract Counties" (Kern, Los Angeles, Marin, Santa Barbara and Ventura).

Those valley-floor lands where there is no State Responsibility Area are the fire protection responsibility of local agencies and are known as "Local Zone".

The CDF contracts with the United States Forest Service and with five Contract Counties for the protection of State Responsibility Area located within those agencies' protection boundaries. In turn, certain Federal agencies (Bureau of Land Management, Bureau of Indian Affairs, Bureau of Reclamation, and United States Forest Service) contract to the CDF for the protection of Federal lands intermingled with State Responsibility Area.

Some local governments contract to the CDF for the protection of life and property in Local Zone or State Zone. The CDF is reimbursed by the local government for this service.

Except where specifically noted, the tabulations in this book are based on fires occurring on State Zone and Local Zone areas directly protected by the Department of Forestry.

Not reported here are fires upon lands protected by other agencies such as the United States Forest Service, Bureau of Land Management, National Park Service, Bureau of Indian Affairs, fire districts and city and other fire departments, except as noted. Fire suppression action by CDF crews on these lands is shown. Action by these agencies upon the CDF's direct protection area is also shown.

WILDFIRE STATISTICS

ALL AGENCIES

1979 FIRE SEASON SUMMARY - ALL AGENCIES

Precipitation in the 1978-79 winter was about average except for the northern portion of the state where it was only about 75% of normal. Grass growth was good, and early spring drying led to several large fires in May.

The last week of May and the first week of June brought adverse weather conditions and set the scene for the rest of the summer. Hot dry winds and high temperatures existed over a large portion of the state.

June, July, and August were hot with major fires occurring statewide except in timbered areas. The spring grass growth was a major contributing factor to the number and size of fires. Fortunately there were no severe lightning storms during the hottest summer months.

September continued the same until mid-month, when lightning and Santana winds hit southern California and numerous major brush fires developed, while other fires were burning in the rest of the State.

The latter half of October brought some badly needed rain over most of northern and central California. By early November all but southern California was out of fire season, and that area terminated at the end of the year.

Number of Fires and Acres Burned - All Agencies

	Number of Fires	Acres Burned
California Department of Forestry	10,038	247,000
United States Forest Service	2,125	72,000
Contract Counties	1,677	118,000
Bureau of Land Management	126	16,000
National Park Service	316	2,000
1979 Total	14,282	455,000
1974-78 5-Year Average	12,865	242,000

1979 LARGE FIRE SUMMARY

The following list includes fires 300 acres or larger that burned at least:

TIMBER - 30 acres or more, or
BRUSH - 300 acres or more, or
WOODLAND AND/OR GRASS - 1500 acres or more.

The list is primarily CDF fires, but also includes some other agency fires on which CDF forces were significantly involved. The other agency fires shown are not a complete list of any other agencies large fires.

Abbreviations used in this list are:

DATE START = date fire started.
DATE CONT. = date fire contained.
ORIGIN D.P.A. = The agency on whose direct protection area (D.P.A.) the fire started.
ACRES BURNED = acres burned in direct protection area of CDF, other agencies, and total area burned.
VEG. TYPE = type of vegetation on area burned.
T = timber
B = brush
W = woodland
G = grass
AP = agricultural products
HOMES = number of dwellings destroyed or damaged. Dwellings destroyed or damaged by fires not included on this list have not been tabulated.
CDF DEATHS = number of CDF employees, who died on or as a result of the fire. In Addition to the 4 fatalities shown in the list were 2 others for a total of 6.

MISC. ABBREVIATIONS:
NF = National Forest
USFS = United States Forest Service
NPS = National Park Service
N/A = Not available

LOCAL GOVERNMENT CDF CONTRACT PROTECTION

ON THE FOLLOWING TABLES "CAUSE" IS BASED ON "FORM OF HEAT CAUSING IGNITION"

FUEL POWER OBJ.	=	Heat from fuel powered equipment of all types. Includes both mobile equipment such as vehicles, and stationary equipment such as water heaters. Includes sparks, hot particles, flames, etc. escaping from equipment and starting fires.
ELEC. EQUIP.	=	Heat from electrical transmission and electric powered equipment. Includes short circuits, arcing, sparks, overheating, etc.
SMOKING	=	Heat from smoking material such as cigarettes, pipes, tobacco, etc.
OPEN FLAME	=	Heat from open flame or sparks. Includes campfires, rubbish fires, land clearing, matches, candles, etc.
HOT OBJECT	=	Heat from hot object. Includes heat due to friction such as overheated tires, bearings, brake shoes, etc.
EXP. OR INCEND.	=	Heat from explosives, fireworks, and incendiary devices.
NATURAL SOURCE	=	Heat from natural sources such as lightning and spontaneous combustion.
OTHER FIRE	=	Heat from another hostile fire. Examples are: a grass fire started by a vehicle fire, a building ignited by a grass fire, and a building ignited by a separate building fire.

*One crew run is the response of one suppression crew to a fire regardless of number of engines sent or return trips to the fire.

**Miscellaneous fires are wildfires occurring in Military Reservations, Contract Counties, Cities, Other States and Mexico.
