WILDFIRE ACTIVITY STATISTICS

JERRY PARTAIN

Director

WILDFIRE ACTIVITY STATISTICS

FOREWORD

The California Public Resources Code directs the State Board of Forestry to designate state and privately owned forest, watershed, and rangeland as "State Responsibility Area." The Department's fire protection mission is to protect natural resources on those lands from damages by wildfire. Land not designated as State Responsibility Area is the protection responsibility of federal or local agencies.

The Department of Forestry and Fire Protection provides direct protection for most State Responsibility Area. The remainder is protected by several agencies and counties under contracts with the state. The Department of Forestry and Fire Protection also contracts to provide wildland fire protection on certain federal lands, and also provides contracted life and property protection for numerous local governments.

This annual report is primarily a statistical record of fires and damages on State Responsibility Area, and on other areas which the Department of Forestry and Fire Protection protects under contract.

The 1987 publication of Wildfire Activities Statistics has been automated for the first time in Sacramento Headquarters. All previous reports were hand tabulated. Presently being collected are eighty data elements from the FC-18 which are being used to compile the database using RBASE System 5. Due to the lack of extensive staff time it would require, fire suppression crew activity has been eliminated from the Red Book.

The Sacramento Headquarters Planning staff would be interested in any input of reports which would be of interest in future publications.

GLOSSARY

CDF = California Department of Forestry and Fire Protection

CONTRACT COUNTY = Counties that protect State Responsibility Area with their fire departments. For providing that protection the counties receive payment from the state, and CDF support and reinforcement as needed for fire suppression. There are six contract counties: Kern, Los Angeles, Marin, Orange, Santa Barbara, and Ventura.

DIRECT PROTECTION = The area protected by an agency with its own fire protection force.

FEDERAL ZONE = The direct protection area Of U.S. Forest Service, Bureau of Land Management, National Park Service, Department of Defense, and Bureau of Indian Affairs. State Responsibility Area within federal zone is protected by federal agencies. For providing that protection the federal agencies receive payment from the state.

LOCAL ZONE = Area in which there is no State Responsibility Area. In general, this is valley floor and desert land. Fire protection in local zone is provided by local government agencies; such as, cities, counties, and fire districts, or by the CDF under contract to local governments.

LOCAL RESPONSIBILITY FIRE = A fire that did not burn or threaten to burn natural resources.

STATE RESPONSIBILITY AREA (SRA) = The area designated by the State Board of Forestry on which the state assumes financial responsibility for protecting natural resources from damage by fire.

STATE RESPONSIBILITY WILDFIRE = A fire in SRA which burns or threatens to burn natural resources.

STATE ZONE = State Responsibility Area and intermingled islands of federal land protected by the CDF and contract counties. Most federal land in state zone is protected by the CDF under contracts with federal agencies.

WILDFIRE = Contraction of "wildland fire." This term is used by wildland fire protection agencies to indicate a vegetation fire. Wildfire generally replaces such terms as forest fire, brush fire, range fire, and grass fire.

WILDFIRE STATISTICS

ALL AGENCIES

1987 FIRE SEASON SUMMARY

This year was generally drier than normal. The months of February, March, October, November and December were above normal while the remaining months were all below normal.

In the extra dry April through September period, there were runs of 100% and greater days in May and August. August saw highs topping out at 114 degrees in Redding and 110 degrees in Sacramento late in the month.

Massive dry thunderstorms began August 29th and lasted through September 11. A record number of fire starts occurred in this period; mostly at higher elevations protected by the U.S. Forest Service.

The first two-thirds of October were still dry although the fire activity had begun to slow. Statewide rains began in the last third of the month at a rate that brought the months totals to an above normal level. November and December closed out the year with normal precipitation.

Fire season was declared in all ranger units during May and closed during November.

FIRE STATISTICS

LOCAL RESPONSIBILITY

CDF CONTRACT PROTECTION

THIS SECTION LISTS FIRES SUPPRESSED BY CDF FORCES UNDER CONTRACT TO LOCAL GOVERNMENT AGENCIES.

THE DATA SOURCE FOR THIS SECTION IS CDF FORM FP-1 REPORTS CODED "3" IN ITEM NUMBER 34 "PROTECTION RESPONSIBILITY".

LOCAL GOVERNMENT CDF CONTRACT PROTECTION

"CAUSE" IS BASED ON "FORM OF HEAT CAUSING IGNITION"

FUEL POWER OBJ.	= Heat from fuel powered equipment of all types. Includes both mobile equipment such as vehicles, and stationary equipment such as water heaters. Includes sparks, hot particles, flames, etc. escaping from equipment and starting fires.
ELEC. EQUIP.	= Heat from electrical transmission and electric power equipment. Includes short circuits, arcing, sparks, overheating, etc.
SMOKING	= Heat from smoking material such as cigarettes, pipes, tobacco, etc.
OPEN FLAME	= Heat from open flame or sparks. Includes campfires, rubbish fires, land clearing, matches, candles, etc.
HOT OBJECT	= Heat from hot object. Includes heat due to friction such as overheated tires, bearings, brake shoes, etc.
EXP. OR INCEND.	= Heat from explosives, fireworks, and incendiary devices.
NATURAL SOURCE	= Heat from natural sources such as lightning and spontaneous combustion.
OTHER FIRE	= Heat from another hostile fire. Examples are: a grass fire started by a vehicle fire, a building ignited by a grass fire, and a building ignited by a separate building fire.
