1980 WILDFIRE ACTIVITY STATISTICS

FORWARD

The California Department of Forestry is responsible for wildland fire protection on state and privately owned forest, range, and watershed land in the State of California. The department's mission is to protect natural resources on those lands from damages by wildfire and to enhance those resources through the judicious use of prescribed fire.

The Public Resources Code directs the State Board of Forestry to designate certain land as "State Responsibility Area." It is that area for which the California Department of Forestry is responsible for providing wildland fire protection, either directly or through contracts with other agencies. Land not designated as State Responsibility Area falls under the fire protection jurisdiction of federal or local agencies. The Department of Forestry provides direct protection for most State Responsibility Area. The remainder is protected by several federal agencies and counties under contracts with the state. The Department of Forestry also contracts to provide wildland fire protection on certain federal lands and, in addition, provides contracted life and property protection for numerous local government jurisdictions.

This annual report is primarily a statistical record of fires, damages, and fire suppression activity on State Responsibility Area and other areas which the Department of Forestry protects under contract.

GLOSSARY

C.D.F. = California Department of Forestry

CONTRACT COUNTY = Counties that protect State Responsibility Area with their fire departments. For providing that protection the counties receive payment from the state, and C.D.F. support and reinforcement as needed for fire suppression. There are six contract counties: Kern, Los Angeles, Marin, Santa Barbara, Ventura, and Orange. Orange became a contract county July 1, 1980.

DIRECT PROTECTION = The area protected by an agency with its own fire protection force.

FEDERAL ZONE = The direct protection area of U.S. Forest Service, Bureau of Land Management, National Parks Service, Department of Defense, and Bureau of Indian Affairs. State Responsibility Area within federal zone is protected by federal agencies. For providing that protection the federal agencies receive payment from the state.

LOCAL ZONE = Area in which there is no State Responsibility Area. In general this is valley floor and desert land. Fire protection in local zone is provided by local government agencies such as cities, counties, and fire districts, and by the C.D.F. under contract to local governments.

LOCAL RESPONSIBILITY FIRE = A fire that did not burn or threaten to burn natural resources.

STATE RESPONSIBILITY AREA ("SRA") = The area designated by the State Board of Forestry on which the state assumes financial responsibility for protecting natural resources from damage by fire.

STATE RESPONSIBILITY WILDFIRE = A fire in SRA which burns or threatens to burn natural resources.

STATE ZONE = State Responsibility Area and intermingled islands of federal land protected by the C.D.F. and contract counties. The federal land in state zone is protected by the C.D.F. under contracts with federal agencies.

WILDFIRE = Contraction of "wildland fire." This term is used by wildland fire protection agencies to indicate a vegetation fire. Wildfire generally replaces such terms as forest fire, brush fire, range fire, and grass fire.

	San Diego	Add 856 acres State Zone from Orange Ranger Unit.

WILDFIRE STATISTICS

ALL AGENCIES

1980 CALIFORNIA FIRE SEASON SUMMARY

Winter precipitation was above average, and spring showers fell through May causing unusually heavy grass and brush growth. A rapid drying trend began in June, and by the end of the month several 300 acre fires had occurred. In July there were several 5000 acre or larger fires, and the season continued above normal in temperature and fire intensity. Fortunately, lightning occurrence was below normal.

The worst damage of the year occurred in southern California in the last half of November when numerous, wind-driven fires burned 136,000 acres of brush-covered watershed, destroyed 450 structures, and caused four fatalities. Those fires involved all protection agencies in southern California, and required a large amount of out-of-state help. The 1980 fire season was much worse than usual with twice as many 300 acre and larger fires and 35% more acres burned than average, and the southern California fires as damaging as any on record in that area.

NUMBER OF WILDFIRES AND ACRES BURNED

Direct Protection Area of:	Wildfires	Acres Burned
California Department of Forestry	9159	160,000
United States Forest Service	2066	127,000
Contract Counties	1924	55,000
U.S. Bureau of Land Management	192	41,000
National Park Service	229	20,000
1980 Total	13,570	403,000
1975-1979 5-Year Average	13,029	298,000

1980 LARGE FIRE SUMMARY

The following list includes fires 300 acres or larger that burned at least:

TIMBER - 30 acres or more, or
BRUSH - 300 acres or more, or
WOODLAND AND/OR GRASS - 1500 acres or more.

The list is primarily CDF fires, but also includes some other agency fires on which CDF forces were significantly involved. The other agency fires shown are not a complete list of any other agencies large fires.

Abbreviations used in this list are:

DATE START = date fire started.
DATE CONT. = date fire contained.
ORIGIN D.P.A. = The agency on whose direct protection area (D.P.A.) the fire started.
ACRES BURNED = acres burned in direct protection area of CDF, other agencies, and total area burned.
VEG. TYPE = type of vegetation on area burned.
T = timber
B = brush
W = woodland
G = grass
AP = agricultural products
HOMES = number of dwellings destroyed or damaged. Dwellings destroyed or damaged by fires not included on this list have not been tabulated.
CDF DEATHS = number of CDF employees, who died on or as a result of the fire. There was one CDF employee killed in a fire not included on this list.

MISC. ABBREVIATIONS:
NF = National Forest
USFS = United States Forest Service
NPS = National Park Service
CC = Contract County
N/A = Not Available

LOCAL GOVERNMENT CDF CONTRACT PROTECTION

ON THE FOLLOWING TABLES "CAUSE" IS BASED ON "FORM OF HEAT CAUSING IGNITION"

FUEL POWER OBJ.	=	Heat from fuel powered equipment of all types. Includes both mobile equipment such as vehicles, and stationary equipment such as water heaters. Includes sparks, hot particles, flames, etc. escaping from equipment and starting fires.
ELEC. EQUIP.	=	Heat from electrical transmission and electric powered equipment. Includes short circuits, arcing, sparks, overheating, etc.
SMOKING	=	Heat from smoking material such as cigarettes, pipes, tobacco, etc.
OPEN FLAME	=	Heat from open flame or sparks. Includes campfires, rubbish fires, land clearing, matches, candles, etc.
HOT OBJECT	=	Heat from hot object. Includes heat due to friction such as overheated tires, bearings, brake shoes, etc.
EXP. OR INCEND.	=	Heat from explosives, fireworks, and incendiary devices.
NATURAL SOURCE	=	Heat from natural sources such as lightning and spontaneous combustion.
OTHER FIRE	=	Heat from another hostile fire. Examples are: a grass fire started by a vehicle fire, a building ignited by a grass fire, and a building ignited by a separate building fire.
