WILDFIRE ACTIVITY STATISTICS

FOREWORD

The California Public Resources Code directs the State Board of Forestry to designate state and privately-owned forest, watershed, and rangeland as "State Responsibility Area." The department's fire protection mission is to protect natural resources on those lands from damage by wildfire. Land not designated as State Responsibility Area is the protection responsibility of federal or local agencies.

The Department of Forestry and Fire Protection provides direct protection for most State Responsibility Area. The remainder is protected by several agencies and counties under contract with the state. The Department of Forestry and Fire Protection also contracts to provide wildland fire protection on certain federal lands, and also provides contracted life and property protection for numerous local governments.

This annual report is primarily a statistical record of fires and damage on State Responsibility Area, and on other areas which the Department of Forestry and Fire Protection protects under contract.

The Emergency Activity Reporting System became effective July 1, 1989. Fire data is entered into the computer at the fire station level, then forwarded via modem and phone lines to Sacramento Headquarters for storage in the state database.

GLOSSARY

CDF

California Department of Forestry and Fire Protection

CONTRACT COUNTY

Counties that protect State Responsibility Area with their fire departments. For providing that protection the counties receive payment from the state, and CDF support and reinforcement and reinforcement as needed for fire suppression. There are six contract counties: Kern, Los Angeles, Marin, Orange, Santa Barbara, and Ventura.

DIRECT PROTECTION

The area protected by an agency with its own fire protection force.

FEDERAL DPA

The direct protection area of U.S. Forest Service, Bureau of Land Management, National Park Service, Department of Defense, and Bureau of Indian Affairs. State Responsibility Area within federal DPA is protected by federal agencies.

LOCAL DPA

Area in which there is no State Responsibility Area. In general, this is valley floor and desert land. Fire protection in local DPA is provided by local government agencies; such as, cities, counties, and fire districts, or by the CDF under contract to local governments.

LOCAL DPA FIRE

A fire that is the responsibility of the local government.

STATE RESPONSIBILITY AREA (SRA)

The area designated by the State Board of Forestry on which the state assumes financial responsibility for protecting natural resources from damage by fire.

STATE RESPONSIBILITY WILDFIRE

A fire in SRA which burns or threatens to burn natural resources.

STATE DPA

State Responsibility Area and intermingled federal lands protected by the CDF. Most federal land in state DPA is protected by the CDF under contracts with federal; agreements with federal forest agencies. (4-party agreement)

WILDFIRE

Contraction of "wildland fire." This term is used by wildland fire protection agencies to indicate a vegetation fire. Wildfire generally replaces such terms as forest fire, brush fire, range fire, and grass fire.

2001 FIRE SEASON SUMMARY

Fire season 2001 was relatively mild, with wildland fires totaling 6,223 and acres burned at 90,985. This represents an increase of 20% more fires than last year and 3% below the 5-year average. Acreage numbers reflect a 25% increase above last year and 39% below the 5-year average.

The season began with the first Units opening fire season on May 14th and ended with the last Units closing on December 3rd. A mild season flurry of activity commenced on August 8th on both State and Federal direct protection areas that lasted through September 21st. This activity was triggered by hot and dry conditions coupled with dry lightning. The fires occurring during this period strained the State Mutual Aid System and resulted in the mobilization of California National Guard Air resources.

The top five fires in acreage burned in CDF direct protection area:

PLAYING WITH FIRE – Fire started without malicious intent by adults or children playing or experimenting with fire or fire-causing agents. Includes fires started unintentionally while playing with fireworks, toys, models and other fire-causing devices. When children cause a fire by smoking, the intent determines the cause, i.e., if smoking as a play activity, use "Playing with fire"; if smoking as a smoker, the cause is "Smoking."

OTHER CAUSE OR OTHER/MISCELLANEOUS – Fire started by events or activities that cannot be logically placed in any of the preceding cause classes. Examples are electrical wiring on user's side of meter, explosives and munitions (without arson intent) fireworks or signal devices (not in play activity), spontaneous combustion, spark from fireplace (when not debris burning), horseshoe spark, light bulb, or natural source (not lightning). Do not use for fires of unknown cause unless "other is the most logical choice of causes.
