FOREWORD

The California Public Resources Code directs the State Board of Forestry to designate state and privately owned forest, watershed, and rangeland as "State Responsibility Area". The Department's fire protection mission is to protect natural resources on those lands from damages by wildfire.

Land not designated as State Responsibility Area is the protection responsibility of federal or local agencies. The Department of Forestry provides direct protection for most State Responsibility Area. The remainder is protected by several agencies and counties under contracts with the state. The Department of Forestry also contracts to provide wildland fire protection on certain federal lands, and also provides contracted life and property protection for numerous local governments.

This annual report is primarily a statistical record of fires, damages, and fire suppression activity on State Responsibility Area, and on other areas which the Department of Forestry protects under contract.

GLOSSARY

C.D.F. = California Department of Forestry

CONTRACT COUNTY = Counties that protect State Responsibility Area with their fire departments. For providing that protection the counties receive payment from the state, and C.D.F. support and reinforcement as needed for fire suppression. There are six contract counties: Kern, Los Angeles, Marin, Orange, Santa Barbara, and Ventura.

DIRECT PROTECTION = The area protected by an agency with its own fire protection force.

FEDERAL ZONE = The direct protection area of U.S. Forest Service, Bureau of Land Management, National Park Service, Department of Defense, and Bureau of Indian Affairs. State Responsibility Area within federal zone is protected by federal agencies. For providing that protection the federal agencies receive payment from the state.

LOCAL ZONE = Area in which there is no State Responsibility Area. In general, this is valley floor and desert land. Fire protection in local zone is provided by local government agencies such as cities, counties, and fire districts, or by the C.D.F. under contract to local governments.

LOCAL RESPONSIBILITY FIRE = A fire that did not burn or threaten to burn natural resources.

STATE RESPONSIBILITY AREA ("SRA") = The area designated by the State Board of Forestry on which the state assumes financial responsibility for protecting natural resources from damage by fire.

STATE RESPONSIBILITY WILDFIRE = A fire in SRA which burns or threatens to burn natural resources.

STATE ZONE = State Responsibility Area and intermingled islands of federal land protected by the C.D.F. and contract counties. Most federal land in state zone is protected by the C.D.F. under contracts with federal agencies.

WILDFIRE = Contraction of "wildland fire." This term is used by wildland fire protection agencies to indicate a vegetation fire. Wildfire generally replaces such terms as forest fire, brush fire, range fire, and grass fire.

WILDFIRE STATISTICS

ALL AGENCIES

1981 CALIFORNIA FIRE SEASON SUMMARY

The CDF organization was on fire mission status by June 1, 1981. This followed a normal winter and spring that gave no indications of the heat wave that settled on California in June and July.

By the middle of June vegetation and weather conditions contributed to many major fires throughout Central and Southern California. In late June, Northern California experienced the most destructive fire (Atlas Peak) since the mid-sixties in terms of structure loss.

Mid July saw a return to normal temperatures and fire activity until early August when Northern California experienced severe burning conditions and several major fires. Lightning caused a series of fires in the Southern Sierras and Southern California later in August. September was near normal without any severe Santa Ana winds in Southern California.

Early rains in Northern California permitted an early closure in that area by mid-October. All of the state was able to end fire season by December 1, the earliest date in several years.

1981 LARGE FIRE SUMMARY

The following list includes fires 300 acres or larger that burned at least:

TIMBER - 30 acres or more, or
BRUSH - 300 acres or more, or
WOODLAND AND/OR GRASS - 1500 acres or more, or
3000 CDF PERSON HOURS - expended on fire suppression.

The list is primarily CDF fires, but also includes some other agency fires on which CDF forces were significantly involved. The other agency fires shown are not a complete list of any other agencies large fires.

Abbreviations used in this list are:

DATE START = Date fire started.
DATE CONT. = Date fire contained.
ORIGIN D.P.A. = The agency on whose direct protection area (D.P.A.) the fire started.
ACRES BURNED = Acres burned in direct protection area of CDF, other agencies, and total area burned.
VEG. TYPE = Type of vegetation on area burned.
T = Timber
B = Brush
W = Woodland
G = Grass
AP = Agricultural Products
HOMES = Number of dwellings destroyed or damaged. Dwellings destroyed or damaged by fires not included on this list have not been tabulated.

MISC. ABBREVIATIONS:
NF = National Forest
USFS = United States Forest Service
NPS = National Park Service
CC = Contract County
N/A = Not Available
