WILDFIRE ACTIVITY STATISTICS

FOREWORD

The California Public Resources Code directs the State Board of Forestry to designate state and privately owned forest, watershed, and rangeland as "State Responsibility Area". The Department's fire protection mission is to protect natural resources on those lands from damages by wildfire. Land not designated as State Responsibility Area is the protection responsibility of federal or local agencies.

The Department of Forestry and Fire Protection provides direct protection for most State Responsibility Area. The remainder is protected by several agencies and counties under contracts with the state. The Department of Forestry & Fire Protection also contracts to provide wildland fire protection on certain federal lands, and also provides contracted life and property protection for numerous local governments.

This annual report is primarily a statistical record of fires, damages, and fire suppression activity on State Responsibility Area, and on other areas which the Department of Forestry and Fire Protection protects under contract.

GLOSSARY

C.D.F. = California Department of Forestry and Fire Protection

CONTRACT COUNTY = Counties that protect State Responsibility Area with their fire departments. For providing that protection the counties receive payment from the state, and C.D.F. support and reinforcement as needed for fire suppression. There are six contract counties: Kern, Los Angeles, Marin, Orange, Santa Barbara, and Ventura.

DIRECT PROTECTION = The area protected by an agency with its own fire protection force.

FEDERAL ZONE = The direct protection area of U.S. Forest Service, Bureau of Land Management, National Park Service, Department of Defense, and Bureau of Indian Affairs. State Responsibility Area within federal zone is protected by federal agencies. For providing that protection the federal agencies receive payment from the state.

LOCAL ZONE = Area in which there is no State Responsibility Area. In general, this is valley floor and desert land. Fire protection in local zone is provided by local government agencies such as cities, counties, and fire districts, or by the C.D.F. under contract to local governments.

LOCAL RESPONSIBILITY FIRE = A fire that did not burn or threaten to burn natural resources.

STATE RESPONSIBILITY AREA ("SRA") = The area designated by the State Board of Forestry on which the state assumes financial responsibility for protecting natural resources from damage by fire.

STATE RESPONSIBILITY WILDFIRE = A fire in SRA which burns or threatens to burn natural resources.

STATE ZONE = State Responsibility Area and intermingled islands of federal land protected by the C.D.F. and contract counties. Most federal land in state zone is protected by the C.D.F. under contracts with federal agencies.

WILDFIRE = Contraction of "wildland fire." This term is used by wildland fire protection agencies to indicate a vegetation fire. Wildfire generally replaces such terms as forest fire, brush fire, range fire, and grass fire.

1985 CALIFORNIA FIRE SEASON SUMMARY

This year began much like 1984 weather-wise. A very wet Fall 1984 became once again a dry winter period.

Spring was also dry with record high temperatures experienced in mid-June. Fire season openings began on May 1 and all but Humboldt-Del Norte Ranger Unit opened by the end of May; Humboldt-Del Norte opened early June.

Summer continued hot and dry in July, tapering off to normal in August. September continuted the cooling trend with showery weather.

Fall weather was dry enough that fire season closures did not begin until mid-October in the northern part of the state and finishing in the southern part in mid-November.

This record setting fire season is one that recorded 7,238 fires burning 223,000 acres in CDF's wildland protection area. The activity level was 8% less in number of fires and 54% above the acreage burned in 1984.

CDF's largest fire was the Las Pilitas fire which burned 49,375 acres in CDF's protection and 74,640 acres total. The largest fire occurring in all jurisdictions was the Wheeler fire which burned 120,000 acres.
