WILDFIRE ACTIVITY STATISTICS

FOREWORD

The California Public Resources Code directs the State Board of Forestry to designate state and privately owned forest, watershed, and rangeland as "State Responsibility Area". The Department's fire protection mission is to protect natural resources on those lands from damages by wildfire. Land not designated as State Responsibility Area is the protection responsibility of federal or local agencies.

The Department of Forestry and Fire Protection provides direct protection for most State Responsibility Area. The remainder is protected by several agencies and counties under contracts with the state. The Department of Forestry and Fire Protection also contracts to provide wildland fire protection on certain federal lands, and also provides contracted life and property protection for numerous local governments.

This annual report is primarily a statistical record of fires, damages, and fire suppression activity on State Responsibility Area, and on other areas which the Department of Forestry and Fire Protection protects under contract.

The 1986 publication of Wildfire Activity Statistics shows the reallocation of the Regions and Ranger Units.

The changes that were made are:

Region VI is now Region III.
Region V closed and their Ranger Units were redistributed accordingly.

San Mateo-Santa Cruz	Region I
Santa Clara	Region I
San Luis Obispo	Region III
San Benito-Monterey	Region IV
Santa Barbara (contract county)	Region III

GLOSSARY

C.D.F. = California Department of Forestry and Fire Protection

CONTRACT COUNTY = Counties that protect State Responsibility Area with their fire departments. For providing that protection the counties receive payment from the state, and C.D.F. support and reinforcement as needed for fire suppression. There are six contract counties: Kern, Los Angeles, Marin, Orange, Santa Barbara, and Ventura.

DIRECT PROTECTION = The area protected by an agency with its own fire protection force.

FEDERAL ZONE = The direct protection area of U.S. Forest Service, Bureau of Land Management, National Park Service, Department of Defense, and Bureau of Indian Affairs. State Responsibility Area within federal zone is protected by federal agencies. For providing that protection the federal agencies receive payment from the state.

LOCAL ZONE = Area in which there is no State Responsibility Area. In general, this is valley floor and desert land. Fire protection in local zone is provided by local government agencies such as cities, counties, and fire districts, or by the C.D.F. under contract to local governments.

LOCAL RESPONSIBILITY FIRE = A fire that did not burn or threaten to burn natural resources.

STATE RESPONSIBILITY AREA ("SRA") = The area designated by the State Board of Forestry on which the state assumes financial responsibility for protecting natural resources from damage by fire.

STATE RESPONSIBILITY WILDFIRE = A fire in SRA which burns or threatens to burn natural resources.

STATE ZONE = State Responsibility Area and intermingled islands of federal land protected by the C.D.F. and contract counties. Most federal land in state zone is protected by the C.D.F. under contracts with federal agencies.

WILDFIRE = Contraction of "wildland fire." This term is used by wildland fire protection agencies to indicate a vegetation fire. Wildfire generally replaces such terms as forest fire, brush fire, range fire, and grass fire.

1986 CALIFORNIA FIRE SEASON SUMMARY

The statewide weather for this year was characterized by above normal rainfall in the first and second quarters of the year. The third and fourth quarters were below normal, except for the extreme Northwestern and Southwestern portions of the state.

In February some of the highest river flows in the past one hundred years were recorded in the central part of the state. CDF crews were very active in assisting the Department of Water Resources flood control operations.

Accordingly the declarations of fire season by the Regions and Ranger Units began a little later than normal. The early units opened May 5, with others joining as their fuels aired, until all units were open on June 19.

The absence of fall rains for most of the state delayed the closing of the declared fire season for many units. The units began closing on September 30, with the last units closing on December 9.

For the year there were 7,149 fires which burned 53,631 acres in the CDF direct protection area. These were 1% less fire occurrences and 76% less acreage burned than in record setting 1985. The acreage burned total is the lowest in the past ten years.

The largest fire in CDF direct protection area began November 6 and burned 5,375 acres in San Benito Monterey Ranger Unit. Statewide the largest fire was experienced by the Sierra National Forest. This fire began September 9 and burned 11,860 acres.

1986 LARGE DAMAGING FIRE SUMMARY

The following list includes fires 300 acres or larger that burned at least:

30 acres of timber, or 300 acres of brush or 1500 acres of woodland and/or grass, or on which 3000 CDF person hours were expended.

The list is primarily CDF fires, but also includes some other agency fires on which CDF forces were significantly involved. The other agency fires shown are not a complete list of any other agencies large fires.

Abbreviations used in this list are:

DATE START = Date fire started.
DATE CONT. = Date fire contained.
ORIGIN D.P.A. = The agency on whose direct protection area (D.P.A.) the fire started.
ACRES BURNED = Acres burned in direct protection area of CDF, other agencies, and total area burned.
VEG. TYPE = Type of vegetation on area burned.
T = Timber
B = Brush
W = Woodland
G = Grass
AP = Agricultural Products
HOMES = Number of dwellings destroyed or damaged. Dwellings destroyed or damaged by fires not included on this list have not been tabulated.

MISC. ABBREVIATIONS:
NF = National Forest
USFS = United States Forest Service
BLM = Bureau of Land Management
CC = Contract County
BIA = Bureau of Indian Affairs
NP = National Park
N/A = Not Available
